*These figures on measures reported included all placed on calendar or acted on by Senate even if there was no accompanying report. A total of 1,012 reports has been filed in the Senate; a total of 1,190 has been filed in the House.

**This figure does not agree with the total difference between bills reported and bills passed, because resolutions and bills placed on the House Calendar without having been formally reported were not included in figures of measures reported to the House; the difference in the case of Senate figures is due to uncounted bills "laid on the table" or "indefinitely postponed."

†Figures on laws and vetoes are complete through September 16; a complete résumé will appear in the last issue of Appendix on October 5, 1959.
